

ASI Integrated Security
12674 Patrick Henry Drive
Newport News, VA 23602

To Whom it May Concern,

ASI has and is currently working with CDIS, Inc on several projects, both major and small. Their organization, communication and quality of work is consistent on each and every project. We have received the same level of service through each and every project. ASI would highly recommend CDIS, Inc. on any project where a BISC certified Telecommunication expert is required.

Sincerely,

Eric Schumacher

Project Manager
